Program/Level Descriptions

Two certification programs will be offered at this event – Championship & Performance. Competitors may enter both Championship and Performance Program classes for which they are eligible; however, under NO circumstance may a dog be entered in the same Championship and Performance class at this agility test (e.g. Standard in both programs). Classes include Standard agility, Gamblers, Jumpers, Pairs, and Snooker as set forth in Chapters 3 – 7 of USDAA Rules and Regulations, each of which are conducted at three competitive levels.

Championship Program

The **Starters Standard** classes shall be for dogs that have not earned the Agility Dog® title or a Starters Standard title.

Starters nonstandard classes shall be for dogs that have not earned a title in the class being entered (Starters Gamblers, Starters Jumpers, Starters Relay– 3 different partners required – or Starters Snooker) or a qualifying score in the equivalent nonstandard class at the Advanced or Masters level. Three qualifying scores in the Standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the Agility Dog title.

The **Advanced Standard** classes shall be for dogs that have earned the Agility Dog® title or a Starters Standard title. **Advanced nonstandard** classes shall be for dogs that have earned the Agility Dog® title or that have earned a title in the equivalent nonstandard class at the Starters level, but have not earned the equivalent Advanced nonstandard title or a qualifying score in the equivalent nonstandard class at the Masters level.

Three qualifying scores in the Standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the Advanced Agility Dog title.

The **Masters Standard** classes shall be for dogs that have earned the Advanced Agility Dog® title or the Advanced Standard title. **Masters nonstandard** classes shall be for dogs that have earned the Advanced Agility Dog® title, the equivalent nonstandard title at the Advanced level, or that had previously qualified for entry into the equivalent Masters nonstandard class prior to January 1, 2004.

Performance Program

Generally, Performance Level I, Level II and Level III are run on courses used for Starters, Advanced and Masters classes in the Championship Program, with the following exceptions: the A-frame is set at 5'6", jump heights are one height class lower, no spread hurdles are utilized, time standards in the Standard and Jumpers classes are extended by 3 seconds beyond that used in the Championship Program and the pairs relay class is nonqualifying. Eligibility is determined as follows:

The **Performance I Standard** classes shall be for any dog that has not earned the Performance Dog ISM title, the Performance Standard I title, or a qualifying score in the Performance II or Performance III Standard classes. **Performance I nonstandard classes** shall be for any dog that has not earned a title in the class being entered (Performance I Gamblers, Performance I Jumpers, or Performance I Snooker) or a qualifying score in the equivalent nonstandard class at the Performance II or Performance III level. Three qualifying scores in the Standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the Performance Dog ISM title.

The **Performance II Standard** classes shall be for any dog that has earned the Performance Dog ISM title, the Performance Standard I title, the Agility Dog® title or the Veteran Agility DogSM title, but has not earned the Performance Dog IISM title or Performance Standard II title, or a qualifying score in the Performance III Standard class.

Performance II nonstandard classes shall be for dogs having earned the Performance Dog ISM title, the Agility Dog® title or a title in the equivalent Starters or Performance I nonstandard class, but not having earned a title in the equivalent nonstandard Performance II class or a qualifying score in the equivalent nonstandard Performance III class. Three qualifying scores in the Standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the Performance Dog^{ISM} title.

The **Performance III Standard** classes shall be for any dog that has earned the Performance Dog ISM title, the Performance Standard II title, the Advanced Agility DogSM title, or the Veteran Advanced Agility DogSM title.

Performance III nonstandard classes shall be for dogs having earned the Performance Dog ISM title, the Advanced Agility Dog® title, the equivalent nonstandard title at the Advanced or Performance II level, or that had previously qualified for entry into the equivalent Performance nonstandard class prior to January 1, 2004.

Non-Standard Class Descriptions

Gamblers Class: This class consists of a course with no predetermined route, and each obstacle is assigned a point value. In the "opening" period the handler seeks to accumulate points by performing the obstacles of his/her choice in the time allotted. At the conclusion of the "opening" period, the handler attempts the "gamble," a sequence designated by the judge to be handled from a distance, for added points. This nonstandard class is pursuant to the provisions of Chapters 6 & 7 of USDAA Rules and Regulations.

Jumpers Class: This class consists of a course of jumps, and MAY include a tire and/or tunnels. This nonstandard class is scored pursuant to the provisions of Chapters 6 & 7 of USDAA Rules and Regulations.

Snooker Class: This class has an "opening" sequence of point collection similar to the Gamblers followed by a closing sequence of a set pattern. This class requires the dog to successfully complete a "red" jump prior to attempting an obstacle designated as any other color. This nonstandard class is pursuant to the provisions of Chapters 6 & 7 of USDAA Rules and Regulations.

Pairs Relay: This class consists of a standard course with one dog and handler running the first portion of the course, followed by a baton exchange to a second handler and dog that run the second portion of the course.

This nonstandard class is scored pursuant to the provisions of Chapters 6 & 7 of USDAA Rules and Regulations.

In the event only one dog is entered in a program/level, un-entered dogs or dogs from another program/level may NOT be recruited to form a qualifying pair.

The course includes obstacles as set forth in Chapter 7 of USDAA Rules and Regulations for standard performance class, except that no table obstacle shall be used. Standard scoring shall be applied utilizing time standards generally ranging from 3.30 YPS to 3.55 YPS for competitors in the 16" and 22" height classes, from 2.95 to 3.25 YPS for competitors in the 12" height class, and 2.75 to 2.95 YPS in the 8" height class. Competitors must have a ZERO fault round to earn a qualifying score. 2010 Steeplechase® Local Qualifier

Description: The "Steeplechase" is a two-round tournament with emphasis on speed. Each round will be conducted on a jumpers-style course that shall include at least two spread hurdles, a long jump and an A-frame and weave poles (a minimum of ten (10)). Either the A-Frame or weave poles shall be required to be performed twice. Top competitors as set forth below (see qualification and advancement) shall advance to Round 2 to compete for prize money and Tournament Top Ten points. Qualifiers as defined herein earn the right to enter either the quarterfinals or semifinals at the Dog Agility Steeplechase® championships to be held in autumn of 2010. This tournament is open to all competitors not entered in Performance Speed JumpingSM qualifier at this event regardless of titles earned.

Scoring: The tournament shall be conducted pursuant to USDAA Championship Program Starters level rules, except that scoring in each round shall be on a time plus faults basis, with a five-point penalty added to a competitor's performance time for each occurrence of a fallen hurdle or missed contact; running the wrong course shall be scored as an elimination as defined under Masters rules. For purposes of qualification calculations, a competitive performance resulting in "elimination" as a result of performance error in the normal pursuit of a round" shall be included in the count of competitors "actually competing" in the qualifying score computations.

**The judge shall mark a score of "Withdrawn" rather than "Elimination" where a competitor is disciplined in accordance with Appendix C of the regulations because of an incident in the ring resulting in elimination, including but not limited to a courtesy warning by the judge, when such action is instituted. Withdrawals and absentees shall not be included in the number of competitors "actually competing"*

Qualification & Advancement Local Qualifiers: Qualification shall be determined based upon the Round 1 scores of the top three dogs in each jump height provided there are at least 5 scores each in the 12" and 16" height classes or 7 scores each in the 22" and 26" height classes. The top three scores shall be averaged and multiplied by a factor of 1.25 to determine the maximum qualifying score for each jump height. Only competitors with scores equal to or less than the maximum qualifying score in round 1 qualify. In the event that fewer than five competitors actually compete in the 12" or 16" height classes, or seven competitors in the 22" or 26" height classes, the top three scores must be determined from the combined

height division for small dogs (12" and 16") OR large dogs (22" and 26") to determine the maximum qualifying score for all dogs competing in that division in the manner described above. If there are fewer than five competitors actually competing in the small dog division or seven in the large dog division, the top score from the division shall be used to calculate the maximum qualifying score. In this case, the top score shall be multiplied by a factor of 1.25 to determine the maximum qualifying score. Qualifiers and placement winners (minimum of four, there is no maximum) in the height class are eligible to advance to Round 2 at a local qualifying event in order to compete for Top Ten points and prize money, provided they have finished the round with a score. Non-qualifying competitors running in Round 2 shall not be credited with a qualifying score regardless of their final standing and at the Regional level are not eligible to earn a bye based upon their score in Round 2. A finalist slot vacated by a competitor who has earned the right to compete in the final round shall be forfeited and no substitutions are allowed.

2010 Performance Speed JumpingSM Local Qualifier

Description: This is a two-round tournament with emphasis on speed. Each round will be conducted on a jumpers-style course that shall include a long jump, an A-frame and weave poles, a minimum of ten (10) weave poles. Either the A-Frame or weave poles shall be required to be performed twice. All obstacles are set according to Performance specifications.

This tournament is open to all competitors not entered in the Steeplechase qualifier at the same event regardless of titles earned.

Scoring: The tournament shall be conducted pursuant to USDAA Championship Program Starters level rules, except that scoring in each round shall be on a time plus faults basis, with a five-point penalty added to a competitor's performance time for each occurrence of a fallen hurdle or missed contact; running the wrong course shall be scored as an elimination as defined under Masters rules. For purposes of qualification calculations, a competitive performance resulting in "elimination" as a result of performance error in the normal pursuit of a round* shall be included in the count of competitors "actually competing" in the qualifying score computations.

**The judge shall mark a score of "Withdrawn" rather than "Elimination" where a competitor is disciplined in accordance with Appendix C of the regulations because of an incident in the ring, including but not limited to a courtesy warning by the judge, when such action is instituted. Withdrawals and absentees shall not be included in the number of competitors "actually competing".*

Qualification & Advancement

Qualification shall be determined based upon the Round 1 scores of the top three dogs in each jump height provided there are at least 5 scores each in the 8" and 12" height classes or 7 scores each in the 16" and 22" height classes. The top three scores shall be averaged and multiplied by a factor of 1.25 to determine the maximum qualifying score for each jump height. Only competitors with scores equal to or less than the maximum qualifying score in round 1 qualify.

In the event that fewer than five competitors actually compete in the 8" or 12" height classes, or seven competitors in the 16" or 22" height classes, the top three scores must be determined from the combined height division for small dogs (8" and 12") OR large dogs (16" and 22") to determine the maximum qualifying score for all dogs competing in that division in the manner described above.

If there are fewer than five competitors actually competing in the small dog division or seven in the large dog division, the top score from the division shall be used to calculate the maximum qualifying score. In this case, the top score shall be multiplied by a factor of 1.25 to determine the maximum qualifying score. Qualifiers and placement winners (minimum of four, there is no maximum) in the height class are eligible to advance to Round 2 at a local qualifying event in order to compete for Top Ten points and prize money, provided they have finished the round with a score. Non-qualifying competitors running in Round 2 shall not be credited with a qualifying score regardless of their final standing and at the Regional level are not eligible to earn a bye based upon their score in Round 2. A finalist slot vacated by a competitor who has earned the right to compete in the final round shall be forfeited and no substitutions are allowed.

Program eligibility in Regional and National/World Championships shall be determined as follows: Where a competitor has qualifying scores in Championship Program tournaments and Performance Program tournaments, a competitor must enter all Championship Program tournaments unless the total number of qualifications earned in all Performance Program tournaments is greater.

Eligibility for Entry into the Championships: Two qualifying scores as defined herein are required to enter the semifinals at the Performance Speed JumpingSM Championships to be held in autumn of 2010.
